CR CONSTRUCTION COMPANY LIMITED

Company Waste Management Policy

CR Construction Company Limited, a building contractor, is committed to reduce its impact on the environmental by managing its waste in an efficient and sustainable manner.

Each member of the company and subcontractors should take responsibility to avoid generation of waste by well planning of works. The following hierarchy of options should be considered in waste management:

- Reduce** - avoid generation of waste and discard materials in general;
- Re-use** - consider passing on materials and equipment to others before disposal;
- Recycle** - segregation of materials for recycling is essential for the reduction of the waste on site;
- Disposal** - any disposal of waste must comply with statutory and regulatory regulations;
- Goal** - seek continuous improvement in waste management performance by setting appropriate goals and objectives throughout the Company.

Adequate resources and appropriate facilities shall be provided to reduce waste arising from its operations and to implement good waste management practices.

This Policy is communicated to and understood by all personnel within the Company, including the subcontractors as well as their workers. It is reviewed annually or when necessary for continuing suitability to satisfy the needs of the Company, Clients and all Stakeholders.

(This policy statement shall be written in English and Chinese)

David Guan
